ABOUT THE CATHEDRAL SCHOOL

Hi, my name is Sophia. I am going to explain to you about my wonderful school in Townsville called 'The Cathedral School'.

The Cathedral school is a great school. There are many friends and kind teachers. At breaktime you can play handball which is a popular game in school. I loved playing handball with my friends, we had great fun. There is a big lagoon with ducks which you can enjoy sitting around or just walk along side. The Cathedral School has big trees and a huge sporting complex as well as a library called the Wonder hub which you can read fun books with your friends. You can learn how to swim in HP class in the hot summer too. I hope you enjoy The Cathedral School.

A lifetime experience at The Cathedral School of St Anne & St James Townsville

BEST SCHOOL IN TOWNSVILLE

타운즈빌 최고의 학교

Enrolling at The Cathedral School was one of best decision we made to enhance our memorable stay in Townsville.

The Cathedral School, with over 100 years of tradition and history provides students and families a safe environment as well as an outstanding academic program.

The Cathedral School is well known for engaging each child's needs and support. Sophia was very happy and excited while learning at The Cathedral School, we have met such beautiful friends, teachers and families and made wonderful memories during our school days.

As an international student, we were welcomed and felt like a family at the school. We were able to ask and get support whenever we needed from the great faculty, and we always felt that the school was opened for us. Sophia was fortunate to participate in many school activities including volunteering at the school library, ballet, art, drama and one of her favorites was to play on the netball team. Every morning driving past the beautiful lagoon was our favorite part of the day. Parents and teachers have strong relationships, and students can have a safe school experience. Without a doubt we are very proud to be a Cathedral student and feel privileged.

As Mr. Bails, the Junior School principle told us...

'Once a Cathedral student always a Cathedral student'.

We feel that we were loved and supported by friends and families and teacher's and are grateful for our memories.

LIFE IN TOWNSVILLE

타운즈빌 생활

Living in Townsville for 4 years was such a blessing for all of us. Townsville is a small city but has everything you need especially if you have young children, such as beautiful nature surrounded by water, hills, and mountains. Within max 30 minutes you have access to many great places to enjoy the city such as The Strand and Castle Hill. A short 40-minute ferry ride to Magnetic Island makes everyday like a vacation. Tropical weather allows children and families to enjoy lots of outdoor activities in Townsville. It is hot in summer, but you are always ready to hop in the pool or in the lakes to cool down, and you should not miss the perfect cool and breezy winter season. Townsville is full of big and small events which you can participate in and learn about Australian culture. It is not a large city but has everything you need to fulfill your needs. Many cafes, restaurants and shopping malls are there for you to explore in Townsville and you can experience a relaxed, down to earth life. People are kind and helpful and you will meet people willing to give you a hand if you need one, but most of all living in Townsville means you get to see the beautiful sunrise and sunsets everyday, everywhere. Hope you find the real essence of living in a beautiful town which will last for a lifetime memory.
